DR. ALLEN INJURED.

Motor Mishap in Which Physician Sustains Broken Wrist and Broken Ribs.

The heavy dust near the pumping station, east of town, caused the car of Dr. A. B. Allen to skid and turn turtle this morning, injuring the doctor and Fred Diss, who was driving. Several of Dr. Allen's ribs and one wrist were broken. Mr. Diss received no broken bones, but was badly bruised and shaken up.

Dr. Allen was on his way to answer a call about 5 o'clock this morning when the accident happened. The car was going east along the road to the water works, when, striking the heavy dust, it skidded and turned over, throwing Dr. Allen about twenty feet. The two men managed to right the machine, which is a light runabout, and drive back to town, where their injuries were attended to. They are both in bed today, but are not seriously hurt, although Dr. Allen's fractures will be some time in healing.

WAS NEARLY A HUNDRED.

Jacob Ingram, 94, and 62 Years a Resident of Hopkins, Died Wednesday.

Jacob Ingram, 94 years old, for sixty-two years a resident of Hopkins, died at 4 o'clock Wednesday afternoon at the home of his son, James, after an all-summer's illness. The funeral will take place from the son's home, two miles west of Hopkins, Friday morning, and burial will be in Shearer cemetery. Rev. Ray Snodgrass of Savannah, a friend of the family, will conduct the services.

Mr. Ingram had been troubled with ill health at various times during the last few years, but he did not give up until the final sickness of this summer.

He was born in Kentucky, January 22, 1819, where he was raised to young manhood. Then he moved to Indiana, where he married Elizabeth Stobaugh. Eleven children were born to them, of whom nine are still living—Mrs. J. M. Spickelman of St. Louis, Mo.; Mrs. J. M. Colton of Akron, Col.; Mrs. E. A. Haney, Clarinda, Ia.; Mrs. L. C. Bradley, Bedford, Ia.; Mrs. William Boner, Springfield, Mo.; Polk Ingram, Springfield, Mo.; Thomas, James and Clayton Ingram of Hopkins.

Mr. and Mrs. Ingram moved from Indiana to Buchanan county, Missouri, in 1864, and came to Hopkins in 1881, where Mr. Ingram bought the farm west of town on which he lived until the death of his wife in 1905. He then went to live with his son Thomas. When he was taken sick last spring he moved to the home of his son James, where he lived until his death.

These were Brunswick, Mo., which had a temperature of 95, Springfield a temperature of 99, and Concordia, Kan., a temperature of 96.

NODAWAY COUNTY STUDENTS WILL RETURN TO BOOKS.

RUNAWAY BOY CAUGHT.

Francis Curry, 13-Year-Old Boy of Clearmont, Was Found in St. Joseph.

Francis Curry, 13-year-old boy of Clearmont, was picked up at St. Joseph Tuesday night at 10 o'clock. He left his home on August 11, because, he alleges, he was bullied by his step-brother. The boy was taken to Central police station for the night and his story brought tears to the eyes of the matron in charge. Here is the story he told the police:

"I left home because my big step-brother beat me whenever he got ready to do so. I came here because I want to work and make my own living. I wanted to get a job in St. Joseph, if I could, and be independent. I got here on the train by paying my fare with money I earned by working on a threshing machine near my home. I have been intending to run away for a long time because I could not stand my big brother's trying to bully me. "When I left I made my way to various places between here and home, but I had enough money to bring me to St. Joseph and I thought this was the best place to come. All I ask is to be given a chance and I will make my own way."

At this point little Francis began crying, and the kind hearted matron took him under her care. He was locked in a big iron cage, in which there is a soft bed. The strange surroundings and the fact that the little boy probably had never before been behind bars, caused him to go into semi-hysterics for a brief period. He was soon soothed and fell asleep.

Humane Officer Ziemendorf persuaded the little fellow that it would be wise for him to return home. He was placed in the custody of Dr. W. S. Gregory of Savannah, a member of the Curry family, who will take him home.

Marion Curry of Clearmont, the father of Francis, was in Maryville Thursday morning. He said that no word has been received from his son, who is supposed to have gone to Savannah to visit friends. He added that he was sure that his son did not know anyone at that town and thought he was making another effort to run away. He instructed Deputy Sheriff Dee Callahan to look out for the boy in Maryville, as he thinks his son will come here.

To Teach at South Bend.

Shepard Leffler will teach in the South Bend, Ind., high school this year. His work will be in history and economics. Mr. Leffler, who has been in Chicago this last week, will leave there about September 8 to take up his work in the South Bend school.

The pathfinding car, a Paige, passed through Maryville this afternoon on the route-laying trip for the trade tour of the Kansas City Motor Car Dealers' association, which will come through this city September 18. In the car which visited here were E. E. Peake, secretary and treasurer of the Kansas City organization; Cal Reeves of the motor car firm of Hall Bros. & Reeves, Charles McPhail, driver, and C. H. Davis of the Kansas City Star.

"We will make Maryville our noon stop on the day of the 18th," Mr. Peake said. "We will bring here one of the finest bunches of business men that ever left Kansas City on a trade boosting trip. We selected Maryville as an important stop because the news of its progressive spirit has been noised abroad even to our city. We expect one of the best times during our stay here."

The tourists from Kansas City will travel five days through Northwest Missouri and Northeastern Kansas. They will travel in forty motor cars, each of a different make. The trip, though being a trade tour, consequently will evolve itself into a good roads boosting journey. With that end in view the Kansas Cityans are going to bring with them Congressman Borland, ex-Governor Hadley, Judge H. C. Gilbert of Kansas City, and probably Governor Major. Speeches will be made in every town.

No Age Limit.

I used to slam those gay slit skirts,
Which showed a calf a yard,
I thought they were the limit and
I dealt in language hard.

I used to see 'em on the street
And shameless things they were;
I put on blinders like a horse
And turned aside. Yes, sir.

I cannot roast them any more,
Their use I must allow,
My lips are sealed. I am resigned,
For mother wears one now.

ABOUT PRAYING FOR RAIN.

What the Rev. Henry Hepburn of Chicago Said About It in Hopkins Last Sunday.

Rev. Henry Hepburn of Chicago, who is visiting his parents, Mr. and Mrs. J. L. Hepburn of Hopkins, occupied the pulpit of the Presbyterian church of Hopkins on last Sunday. According to the Hopkins Journal, Rev. Hepburn said that he had been asked if he thought that it would do any good to pray for rain. He replied by saying that if people would really pray for rain, pray with faith and in proper spirit, instead of running around among their neighbors asking if they thought it would do any good to pray, the results might be most gratifying.

Here is what God says about the rain: Lev. 26:3-4—"If ye walk in my statutes and keep my commandments and do them, then I will give you rain in due season, and the land shall yield her increase and the trees of the field shall yield their fruit."

Deut. 11:13-14—"And it shall come to pass if ye shall hearken diligently unto my commandments, which I command you this day to love the Lord your God and to serve him with all your heart and with all your soul that I will give the rain of your land and in due season the first rain and the latter rain that thou mayest gather in thy corn and thy wine and thy oil and I will give grass in the fields for thy cattle that thou mayest eat and be full."

II Chron. 7:13—"If I shut up heaven that there be no rain or if I command the locusts to devour the land or if I send pestilence among my people, if my people who are called by my name shall humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven and will forgive their sin and will heal their land."

EFFECTS OF CLIMATE ON CORN.

Great Differences Are Seen Between Northern and Southern Products.

We are entering an era of scientific farming. Experiment stations busily compare different crops, rotations and feed for the benefit of the farmer. Their results are published broadcast and do an immense amount of good, but only in rarest instances do they impress on the farmer climatic differences and their essential nature in crop raising.

The effect of climate on the corn crop is readily seen when one thinks of where the corn crop of the world is grown. Corn has a wide general distribution over the whole world but does its best in the seven states of the United States known as the corn belt. North America produces three-fourths of the world's corn crop. The greater part of this three-fourths is produced in the United States. The corn belt, made up of Ohio, Indiana, Illinois, Iowa, Missouri, Nebraska and Kansas, produces more than half of the corn crop of this nation.

Corn requires from 60 to 160 days in which to mature, and the time of maturity is controlled by the temperature.

The long seasons of the south induce the growth of tall, woody stalks with a large amount of leaf surface and large starchy ears. The short seasons of the north produce a short, dwarfed stalk, a small amount of leaf surface and small ears that are shallowkerneled and smooth.

Dent corn is the race grown in the corn belt where it is best adapted. Flint corn is the horny corn of the north. If flint corn is grown in the corn belt it becomes starchy in character in just a few generations. If dent corn is taken north it becomes flinty in a few generations. Sweet corn is the vegetable corn and is grown throughout the corn belt. It is early maturing and a change of locality does not affect it to as marked a degree as it does the other races. Popcorn is a confection corn grown in nearly every part of the country. Michigan, Wisconsin, Nebraska and Iowa are the leaders in popcorn production. Soft corn is not extensively grown but it comes from the south. The kernels are large and starchy and the corn requires a long season for complete maturity. This race of corn cannot be produced in the north. The sixth race of corn is the pod corn. This race is grown only as a curiosity and has no general use.—R. H. Benton in the Breeders' Gazette.

Lost Two Cows.

George Otis of Hopkins lost two valuable cows this week with compaction of the stomach, caused by eating so much dry feed. It is feared that the dry weather will be the means of many farmers losing both cattle and horses, as the dry, dead grass with no moisture, is very conducive to compaction. Plenty of salt and water should be given stock.—Hopkins Journal.

Little Child Run Over.

Howard Lewis, the 2-year-old son of Mr. and Mrs. Charles Lewis, southeast of Hopkins, followed his mother into the barn lot Tuesday, where the dogs began to chase a span of mules, and before the mother could rescue her baby the mules ran over the little fellow, badly bruising him and breaking his leg near the thigh. The little lad is resting as easy as can be expected under the circumstances.—Hopkins Journal.

THAW WINS THREE POINTS

State of New York Has No Standing in Canadian Court.

FUTURE STATUS INDEFINITE.

Writ of Habeas Corpus is Dropped and Prisoner Will Remain in Sherbrooke Jail to Be Dealt With According to Law.

Sherbrooke, Que., Aug. 28.—Harry K. Thaw won three victories over the New York state authorities and was locked up in the Sherbrooke jail, immune for the time being from the Dominion immigration authorities, after having received an ovation from the townspeople of Sherbrooke that would have done honor to a prince of royal blood.

So demonstrative was the scene in the superior court when Judge Globensky refused to allow counsel representing New York state to be a party to the proceedings, that the court subsequently warned spectators that a repetition of the cheering, chair-climbing, handkerchief-waving and general hysteria would mean jail sentences for the demonstrators.

It was carried out in the presence of court attendants and four armed Dominion police, who stood immobile while emotional women rushed toward Stanford White's slayer, crying:

"Three Cheers for Thaw."

"Three cheers for Thaw; three cheers for the British flag. We will give you justice, Harry."

With Thaw's term of confinement in determinate and the key to the riddle unfound, there was a general exodus of those who rushed hither after the fugitive's sensational escape from Matteawan. William Travers Jerome, former prosecutor of Thaw and specialist on matters appertaining to his life, left for Quebec, accompanied by Franklin Kennedy, deputy attorney general of New York.

Jerome and Kennedy will confer at Quebec with the attorney general of the province in the hope that he, as the province's chief officer of the crown, may be able to open the legal lock that holds Thaw in jail.

Three Points Won.

The three points won by Thaw's lawyers in their first legal skirmish were:

1. New York state was denied the right to be a party to the proceedings in court.

2. Counsel for the state failed in their efforts to have Thaw arraigned before a magistrate and the commitment on which he is held quashed. This would have released him to the immigration officers.

3. Judge Globensky granted the plea of Thaw's counsel for a discontinuance of the writ of habeas corpus, which might have brought his release. This writ was secured by Thaw's attorneys, who apparently did not realize then that in seeking their client's release they were playing into the opposition's hands.

GOVERNORS HEAR ADDRESS BY LISTER

Washington Executive Talks Upon Efficiency and Economy

Colorado Springs, Aug. 28.—The second day of the governors' conference opened with a program that completely filled every moment of the day. The morning session began with Governor William Hodges Mann of Virginia presiding, and the discussion of the hour centered around a paper by Governor Ernest Lister of Washington on "A State Department of Efficiency and Economy."

Governor Lister said that the governor of the state was the head of a business larger than that of any private corporation doing business within the borders of his state and that the people looked to him for results. "I know of but few instances," he added, "where the salaries paid by the state are not as large or larger than are paid by private firms or corporations. Under these conditions, has not the state the right to expect just as efficient service as would be expected by or rendered to a private firm or corporation?"

The conference of governors itself was characterized by Lister as "a department of efficiency and economy."

LA FOLLETTE AS A PROPHET

Predicts Retirement of Gallinger and Others of "His Type."

Washington, Aug. 28.—In a verbal tilt, marked by bitterness on both sides, Senator La Follette predicted the retirement of Senator Gallinger of New Hampshire, Republican, and others of "his type," because of their alleged failure to adjust themselves to changing industrial conditions.

The colloquy followed Senator La Follette's declaration that Republican senators who were voting against a heavier income tax on big incomes included many who had "always opposed the establishment of any income tax." He was commenting upon the defeat of the Bristow amendment proposing a tax running up to 10 per cent on incomes of \$100,000, and against which thirteen Republicans and the solid Democratic side had voted.

RUSH TROOPS TO BORDER

President Warns All Americans in Mexico to Leave.

CONSULS GIVEN INSTRUCTIONS

Officials of Southern Republic to Be Held Responsible for Harm to United States Citizens and Property. Close Watch Along Boundary.

San Antonio, Tex., Aug. 28.—One troop of the Third cavalry and a battery of the Third field artillery were rushed from Fort Sam Houston to the border upon orders from the war department at Washington. The special trains were ready on two boats. The artillerymen were sent to Laredo, Tex., and the cavalrymen to Brownsville.

St. Louis, Aug. 28.—A detachment of 150 United States troops passed through this city for border service at Texas City, Tex. They came from Columbus Barracks, O.

Washington, Aug. 28.—President Wilson has warned all Americans to leave Mexico. At the same time the Mexican embassy and all consular representatives throughout the southern republic were instructed to "notify all officials, civil and military, in Mexico" that they would be held strictly responsible for harm or injury done to Americans or their property.

Secretary Bryan dispatched long telegrams to the embassy and all consular representatives, quoting extracts from the president's address to congress, in which he reviewed the futile peace negotiations with the Huerta government and the policy the United States would pursue toward Mexico.

In these messages the consuls were instructed to give every aid possible to departing Americans, furnishing transportation and any other pecuniary assistance to the needy. They were informed that a sufficient number of ships would be provided to carry away those in the seacoast towns.

Foreign governments will be notified of the action of the United States so that they may give similar advice, but the American consuls will help all foreigners in any emergency.

Within a day or two an announcement is expected of the large mobilization of troops along the southern border to enforce neutrality in the traffic of arms and munitions of war. President Wilson was in touch with Assistant Secretary Breckinridge of the war department, but the nature of his communication was not revealed. It is believed that the president not only is preparing to strengthen the border patrol, but desires the strictest vigilance by troops already watching the international boundary.

Wilson Reads Message to Congress.

President Wilson appeared in person before congress and laid bare to the world the details of this nation's efforts to bring about peace in Mexico; the facts concerning Huerta's rejection of the peace proposals and the policy to be pursued now by this government.

The president announced the position of the United States as follows:

"No armed intervention. Strict neutrality. Forbidding the exportation of arms or munitions of war of any kind from the United States to any part of Mexico."

"Under no circumstances to be the partisans of either party to the contest that now distracts Mexico, or constitute ourselves the virtual umpire between them."

"To urge all Americans to leave Mexico at once and to assist them to get away in every way possible."

"To let every one in Mexico who assumes to exercise authority know that this government shall vigilantly watch the fortunes of those Americans who cannot get away and shall hold those responsible for their sufferings and losses to a definite reckoning."

Answer From Huerta.

Accompanying the president's address was the reply of the Huerta government rejecting the American proposals. It was written by Foreign Minister Gamboa. It suggested the following alternative policy for the United States:

Reception of a Mexican ambassador at Washington.

That the United States send a new ambassador to Mexico without restraints.

Strict observance of the neutrality laws and "see to it that no material or monetary assistance is given to the rebels."

Unconditional recognition of the Huerta government.

GAMBOA GIVES OUT FACTS

Presents to Congressional Committee Correspondence With U. S.

Mexico City, Aug. 28.—Without comment, Federico Gamboa, minister of foreign affairs, presented to the standing committee of the Mexican congress all the facts in the controversy between Mexico and the United States.

Senor Gamboa insists that the negotiations are not entirely concluded, but should they be it is probable that soon the entire affair will be regarded as a closed incident.

The congressmen, in discussing the notes exchanged, freely commended the action of the Mexican government.

You may start an account in our SAVINGS DEPARTMENT with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world, and think what it means.

The SAVINGS DEPARTMENT of the NODAWAY VALLEY BANK will open for business on

DR. ALLEN INJURED.

Motor Mishap in Which Physician Sustains Broken Ribs and Broken Ribs.

The heavy dust near the pumping station, east of town, caused the car of Dr. A. B. Allen to skid and turn turtle this morning, injuring the doctor and Fred Diss, who was driving. Several of Dr. Allen's ribs and one wrist were broken. Mr. Diss received no broken bones, but was badly bruised and shaken up.

Dr. Allen was on his way to answer a call about 5 o'clock this morning when the accident happened. The car was going east along the road to the water works, when, striking the heavy dust, it skidded and turned over, throwing Dr. Allen about twenty feet. The two men managed to right the machine, which is a light runabout, and drive back to town, where their injuries were attended to. They are both in bed today, but are not seriously hurt, although Dr. Allen's fractures will be some time in healing.

WAS NEARLY A HUNDRED.

Jacob Ingram, 94, and 62 Years a Resident of Hopkins, Died Wednesday.

Jacob Ingram, 94 years old, for sixty-two years a resident of Hopkins, died at 4 o'clock Wednesday afternoon at the home of his son, James, after an all-summer's illness. The funeral will take place from the son's home, two miles west of Hopkins, Friday morning, and burial will be in Shearer cemetery. Rev. Ray Snodgrass of Savannah, a friend of the family, will conduct the services.

Mr. Ingram had been troubled with ill health at various times during the last few years, but he did not give up until the final sickness of this summer.

He was born in Kentucky, January 22, 1819, where he was raised to young manhood. Then he moved to Indiana, where he married Elizabeth Stobaugh. Eleven children were born to them, of whom nine are still living—Mrs. J. M. Spickelmeier of St. Louis; Mrs. J. M. Colton of Akron, Col.; Mrs. Eva Haney, Clarinda; Mrs. L. C. Bradley, Bedford, Ia.; Mrs. William Bomer, Springfield, Mo.; Polk Ingram, Springfield, Mo.; Thomas, James and Clayton Ingram of Hopkins.

Mr. and Mrs. Ingram moved from Indiana to Buchanan county, Missouri, in 1864, and came to Hopkins in 1851, where Mr. Ingram bought the farm west of town on which he lived until the death of his wife in 1905. He then went to live with his son Thomas. When he was taken sick last spring he moved to the home of his son James, where he lived until his death.

These were Brunswick, Mo., which had a temperature of 95, Springfield a temperature of 99, and Concordia, Kan., a temperature of 96.

RUNAWAY BOY CAUGHT.

Francis Curry, 13-Year-Old Boy of Clearmont, Was Found in St. Joseph.

Francis Curry, 13-year-old boy of Clearmont, was picked up at St. Joseph Tuesday night at 10 o'clock. He left his home on August 11, because, he alleges, he was bullied by his stepbrother. The boy was taken to Central police station for the night and his story brought tears to the eyes of the matron in charge. Here is the story he told the police:

"I left home because my big stepbrother beat me whenever he got ready to do so. I came here because I want to work and make my own living. I wanted to get a job in St. Joseph, if I could, and be independent. I got here on the train by paying my fare with money I earned by working on a threshing machine near my home. I have been intending to run away for a long time because I could not stand my big brother's trying to bully me. 'When I left I made my way to various places between here and home, but I had enough money to bring me to St. Joseph and I thought this was the best place to come. All I ask is to be given a chance and I will make my own way.'"

At this point little Francis began crying, and the kind hearted matron took him under her care. He was locked in a big iron cage, in which there is a soft bed. The strange surroundings and the fact that the little boy probably had never before been behind bars, caused him to go into semi-hysterics for a brief period. He was soon soothed and fell asleep.

Humane Officer Ziemendorff persuaded the little fellow that it would be wise for him to return home. He was placed in the custody of Dr. W. S. Gregory of Savannah, a member of the Curry family, who will take him home.

Marion Curry of Clearmont, the father of Francis, was in Maryville Thursday morning. He said that no word has been received from his son, who is supposed to have gone to Savannah to visit friends. He added that he was sure that his son did not know anyone at that town and thought he was making another effort to run away. He instructed Deputy Sheriff Dee Callahan to look out for the boy in Maryville, as he thinks his son will come here.

To Teach at South Bend.

Shepard Leffler will teach in the South Bend, Ind., high school this year. His work will be in history and economics. Mr. Leffler, who has been in Chicago this last week, will leave there about September 8 to take up his work in the South Bend school.

MAKE DINNER STOP

MOTOR TOUR FROM KANSAS CITY DUE HERE SEPT. 18.

MANY NOTABLES COMING

Party Includes Congressman Borland, Ex-Gov. Hadley, Judge Gilbert, and Perhaps Gov. Major.

The pathfinding car, a Paige, passed through Maryville this afternoon on the route-laying trip for the trade tour of the Kansas City Motor Car Dealers' association, which will come through this city September 18. In the car which visited here were E. E. Peake, secretary and treasurer of the Kansas City organization; Cal Reeves of the motor car firm of Hall Bros. & Reeves, Charles McPhail, driver, and C. H. Davis of the Kansas City Star.

"We will make Maryville our noon stop on the day of the 18th," Mr. Peake said. "We will bring here one of the latest bunches of business men that ever left Kansas City on a trade boosting trip. We selected Maryville as an important stop because the news of its progressive spirit has been noised abroad even to our city. We expect one of the best times during our stay here."

The tourists from Kansas City will travel five days through Northwest Missouri and Northeastern Kansas. They will travel in forty motor cars, each of a different make. The trip, though being a trade tour, consequently will evolve itself into a good roads boosting journey. With that end in view the Kansas Cityans are going to bring with them Congressman Borland, ex-Governor Hadley, Judge H. C. Gilbert of Kansas City, and probably Governor Major. Speeches will be made in every town.

The pathfinder stayed in Maryville on hour. It left for Tarkio and St. Joseph.

No Age Limit.

I used to slam those gay slit skirts,
Which showed a calf a yard,
I thought they were the limit and
I dealt in language hard.

I used to see 'em on the street
And shameless things they were;
I put on blinders like a horse
And turned aside. Yes, sir.

I cannot roast them any more,
Their use I must allow,
My lips are sealed. I am resigned,
For mother wears one now.

Car Was Badly Damaged.

The automobile of Ed Otis was badly damaged last Saturday. In attempting to crank the car the auto started off down the Otis driveway and ran into the barn. The damage to the car consisted of a broken fender and lamps, and also the front axle being damaged.

Lost Two Cows.

George Otis of Hopkins lost two valuable cows this week with compaction of the stomach, caused by eating so much dry feed. It is feared that the dry weather will be the means of many farmers losing both cattle and horses, as the dry, dead grass with no moisture, is very conducive to compaction. Plenty of salt and water should be given stock.—Hopkins Journal.

ABOUT PRAYING FOR RAIN.

What the Rev. Henry Hepburn of Chicago Said About It in Hopkins Last Sunday.

Rev. Henry Hepburn of Chicago, who is visiting his parents, Mr. and Mrs. J. L. Hepburn of Hopkins, occupied the pulpit of the Presbyterian church of Hopkins on last Sunday. According to the Hopkins Journal, Rev. Hepburn said that he had been asked if he thought that it would do any good to pray for rain. He replied by saying that if people would really pray for rain, pray with faith and in proper spirit, instead of running around among their neighbors asking if they thought it would do any good to pray, the results might be most gratifying.

Here is what God says about the rain: Lev. 26:3-4—"If ye walk in my statutes and keep my commandments and do them, then I will give you rain in due season, and the land shall yield her increase and the trees of the field shall yield their fruit."

Deut. 11:13-14—"And it shall come to pass if ye shall harken diligently unto my commandments, which I command you this day to love the Lord your God and to serve him with all your heart and with all your soul that I will give the rain of your land in due season the first rain and the latter rain that thou mayest gather in thy corn and thy wine and thy oil and I will give grass in the fields for thy cattle that thou mayest eat and be full."

II Chron. 7:13—"If I shut up heaven that there be no rain or if I command the locusts to devour the land or if I send pestilence among my people, if my people who are called by my name shall humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven and will forgive their sin and will heal their land."

EFFECTS OF CLIMATE ON CORN.

Great Differences Are Seen Between Northern and Southern Products.

We are entering an era of scientific farming. Experiment stations busily compare different crops, rotations and feed for the benefit of the farmer. Their results are published broadcast and do an immense amount of good, but only in rarest instances do they impress on the farmer climatic differences and their essential nature in crop raising.

The effect of climate on the corn crop is readily seen when one thinks of where the corn crop of the world is grown. Corn has a wide general distribution over the whole world but does its best in the seven states of the United States known as the corn belt. North America produces three-fourths of the world's corn crop. The greater part of this three-fourths is produced in the United States. The corn belt, made up of Ohio, Indiana, Illinois, Iowa, Missouri, Nebraska and Kansas, produces more than half of the corn crop of this nation.

Corn requires from 60 to 160 days in which to mature, and the time of maturity is controlled by the temperature.

The long seasons of the south induce the growth of tall, woody stalks with a large amount of leaf surface and large starchy ears. The short seasons of the north produce a short, dwarfed stalk, a small amount of leaf surface and small ears that are shallow kernalled and smooth.

Dent corn is the race grown in the corn belt where it is best adapted. Flint corn is the horny corn of the north. If flint corn is grown in the corn belt it becomes starchy in character in just a few generations. If dent corn is taken north it becomes flinty in a few generations. Sweet corn is the vegetable corn and is grown throughout the corn belt. It is early maturing and a change of locality does not affect it to as marked a degree as it does the other races. Popcorn is a confection corn grown in nearly every part of the country. Michigan, Wisconsin, Nebraska and Iowa are the leaders in popcorn production. Soft corn is not extensively grown but it comes from the south. The kernels are large and starchy and the corn requires a long season for complete maturity. This race of corn cannot be produced in the north. The sixth race of corn is the pod corn. This race is grown only as a curiosity and has no general use.—R. H. Benton in the Breeders' Gazette.

Little Child Run Over.

Howard Lewis, the 2-year-old son of Mr. and Mrs. Charles Lewis, southeast of Hopkins, followed his mother into the barn lot Tuesday, where the dogs began to chase a span of mules, and before the mother could rescue her baby the mules ran over the little fellow, badly bruising him and breaking his leg near the thigh. The little lad is resting as easy as can be expected under the circumstances.—Hopkins Journal.

THAW WINS THREE POINTS

State of New York Has No Standing in Canadian Court.

FUTURE STATUS INDEFINITE.

Writ of Habeas Corpus Is Dropped and Prisoner Will Remain in Sherbrooke Jail to Be Dealt With According to Law.

Sherbrooke, Que., Aug. 28.—Harry K. Thaw won three victories over the New York state authorities and was locked up in the Sherbrooke jail, immune for the time being from the Dominion immigration authorities, after having received an ovation from the townspeople of Sherbrooke that would have done honor to a prince of royal blood.

So demonstrative was the scene in the superior court when Judge Globensky refused to allow counsel representing New York state to be a party to the proceedings, that the court subsequently warned spectators that a repetition of the cheering, chair-climbing, handkerchief-waving and general hysteria would mean jail sentences for the demonstrators.

It was carried out in the presence of court attendants and four armed Dominion police, who stood immobile while emotional women rushed toward Stanford White's slayer, crying:

"Three Cheers for Thaw."

"Three cheers for Thaw; three cheers for the British flag. We will give you justice, Harry."

With Thaw's term of confinement indeterminate and the key to the riddle unfound, there was a general exodus of those who rushed hither after the fugitive's sensational escape from Matteawan. William Travers Jerome, former prosecutor of Thaw and specialist on matters appertaining to his life, left for Quebec, accompanied by Franklin Kennedy, deputy attorney general of New York.

Jerome and Kennedy will confer at Quebec with the attorney general of the province in the hope that he, as the province's chief officer of the crown, may be able to open the legal lock that holds Thaw in jail.

Three Points Won.

The three points won by Thaw's lawyers in their first legal skirmish were:

1. New York state was denied the right to be a party to the proceedings in court.

2. Counsel for the state failed in their efforts to have Thaw arraigned before a magistrate and the commitment on which he is held quashed. This would have released him to the immigration officers.

3. Judge Globensky granted the plea of Thaw's counsel for a discontinuance of the writ of habeas corpus, which might have brought his release. Thaw's writ was secured by Thaw's attorneys, who apparently did not realize then that in seeking their client's release they were playing into the opposition's hands.

GOVERNORS HEAR ADDRESS BY LISTER

Washington Executive Talks Upon Efficiency and Economy

Colorado Springs, Aug. 28.—The second day of the governors' conference opened with a program that completely filled every moment of the day. The morning session began with Governor William Hodges Mann of Virginia presiding, and the discussion of the hour centered around a paper by Governor Ernest Lister of Washington on "A State Department of Efficiency and Economy."

Governor Lister said that the governor of the state was the head of a business larger than that of any private corporation doing business within the borders of his state and that the people looked to him for results. "I know of but few instances," he added, "where the salaries paid by the state are not as large or larger than are paid by private firms or corporations. Under these conditions, has not the state the right to expect just as efficient service as would be expected by or rendered to a private firm or corporation?"

The conference of governors itself was characterized by Lister as "a department of efficiency and economy."

LA FOLLETTE AS A PROPHET

Predicts Retirement of Callinger and Others of "His Type."

Washington, Aug. 28.—In a verbal hit, marked by bitterness on both sides, Senator La Follette predicted the retirement of Senator Callinger of New Hampshire, Republican, and others of "his type," because of their alleged failure to adjust themselves to changing industrial conditions.

The colloquy followed Senator La Follette's declaration that Republican senators who were voting against a heavier income tax on big incomes included many who had "always opposed the establishment of any income tax." He was commenting upon the defeat of the Bristow amendment proposing a tax running up to 10 per cent on incomes of \$100,000, and against which thirteen Republicans and the solid Democratic side had voted.

RUSH TROOPS TO BORDER

President Warns All Americans in Mexico to Leave.

CONSULS GIVEN INSTRUCTIONS

Officials of Southern Republic to Be Held Responsible for Harm to United States Citizens and Property. Close Watch Along Boundary.

San Antonio, Tex., Aug. 28.—One troop of the Third cavalry and a battery of the Third field artillery were rushed from Fort Sam Houston to the border upon orders from the war department at Washington. The special trains were ready on two boats bound to Laredo, Tex., and the cavalrymen to Brownsville.

St. Louis, Aug. 28.—A detachment of 150 United States troops passed through this city for border service at Texas City, Tex. They came from Columbus Barracks, O.

Washington, Aug. 28.—President Wilson has warned all Americans to leave Mexico. At the same time the Mexican embassy and all consular representatives throughout the southern republic were instructed to "notify all officials, civil and military, in Mexico" that they would be held strictly responsible for harm or injury done to Americans or their property.

Secretary Bryan dispatched long telegrams to the embassy and all consular representatives, quoting extracts from the president's address to congress, in which he reviewed the futile peace negotiations with the Huerta government and the policy the United States would pursue toward Mexico.

In these messages the consuls were instructed to give every aid possible to departing Americans, furnishing transportation and any other pecuniary assistance to the needy. They were informed that a sufficient number of ships would be provided to carry away those in the seacoast towns.

Foreign governments will be notified of the action of the United States so that they may give similar advice, but the American consuls will help all foreigners in any emergency.

Within a day or two an announcement is expected of the large mobilization of troops along the southern border to enforce neutrality in the traffic of arms and munitions of war. President Wilson was in touch with Assistant Secretary Breckinridge of the war department, but the nature of his communication was not revealed. It is believed that the president not only is preparing to strengthen the border patrol, but desires the strictest vigilance by troops already watching the international boundary.

Wilson Reads Message to Congress.

President Wilson appeared in person before congress and laid bare to the world the details of this nation's efforts to bring about peace in Mexico; the facts concerning Huerta's rejection of the peace proposals and the policy to be pursued now by this government.

The president announced the position of the United States as follows:

"No armed intervention. Strict neutrality, forbidding the exportation of arms or munitions or war of any kind from the United States to any part of Mexico."

"Under no circumstances to be the partisans of either party to the contest that now divides Mexico, or constitute ourselves the virtual umpire between them."

"To urge all Americans to leave Mexico at once and to assist them to get away in every way possible."

"To let every one in Mexico who assumes to exercise authority know that this government shall vigilantly watch the fortunes of those Americans who cannot get away and shall hold those responsible for their sufferings and losses to a definite reckoning."

Answer From Huerta.

Accompanying the president's address was the reply of the Huerta government rejecting the American proposals. It was written by Foreign Minister Gamboa. It suggested the following alternative policy for the United States.

Reception of a Mexican ambassador at Washington.

That the United States send a new ambassador to Mexico without restraints.

Strict observance of the neutrality laws and "see to it that no material or monetary assistance is given to the rebels."

Unconditional recognition of the Huerta government.

GAMBOA GIVES OUT FACTS

Presents to Congressional Committee Correspondence With U. S.

Mexico City, Aug. 28.—Without comment, Frederico Gamboa, minister of foreign affairs, presented to the standing committee of the Mexican congress all the facts in the controversy between Mexico and the United States.

Senor Gamboa insists that the negotiations are not entirely concluded, but should they be it is probable that soon the entire affair will be regarded as a closed incident.

The congressmen, in discussing the notes exchanged, freely commended the action of the Mexican government.

URIC ACID SOLVENT.

Fifty-Cent Bottle (32 Doses) Free.

Just because you start the day worried and tired, stiff legs and arms and muscles, an aching head, burning and bearing down pains in the back—worn out before the day begins, do not think you have to stay in that condition.

Be strong, well and vigorous, with no more pains from stiff joints, sore muscles, rheumatic suffering, aching back or kidney disease.

For any form of bladder trouble or weakness, its action is really wonderful. Those sufferers who are in and out of bed half a dozen times a night will appreciate the rest, comfort and strength this treatment gives.

To prove the Williams Treatment conquers kidney and bladder diseases, rheumatism and all uric acid troubles, no matter how chronic or stubborn, if you have never used the Williams Treatment, we will give one 50c bottle (32 doses) free if you will cut out this notice and send it with your name and address, with 10c to help pay distribution expenses, to the Dr. D. A. Williams Company, Department 255 P. O. building, East Hampton, Conn. Send at once and you will receive by parcel post a regular 50c bottle, without charge and without incurring any obligations. THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.
